Exhaust Clamp

Zinc-Plated Mild Steel

ATE W1 Exhaust Clamp

Information	Ø Application mm	Reference	Ø min. mm	b ± 0,5	a ± 0,2	Box Quantity	Packing
This clamp has been designed specifically for use in automotive applications as its name suggests. It is used to join safely and securely two metal tubes subject to constant high temperatures and vibration, thereby avoiding leaks of exhaust fumes.	27-30	03002765	27	30	1,5	100	400
